

Sherif Gamal

Embedded Systems Engineer

sherif.gamal@embedded.tech | +20 100 234 5678 | Cairo, Egypt

Professional Summary

Embedded Systems Engineer with 6 years designing firmware and real-time systems for automotive and IoT applications. Expert in ARM Cortex, RTOS, and CAN bus protocols.

Core Skills

C/C++ • ARM Cortex • FreeRTOS • CAN Bus
SPI/I2C/UART • AUTOSAR • MATLAB/Simulink • PCB Design

Work Experience

Senior Embedded Engineer — Valeo Egypt

2021–Present

- ▶ Developed AUTOSAR BSW for ADAS camera module.
- ▶ Reduced memory footprint by 30% through firmware optimization.
- ▶ Led team delivering ECU software for Mercedes-Benz project.

Firmware Engineer — Mentor Graphics

2018–2021

- ▶ Ported Linux kernel drivers for custom SoC platforms.
- ▶ Implemented CAN stack for industrial controllers.

Education

B.Sc. Electrical Engineering — Ain Shams University (2018)
