

Nour El-Din Ramadan

Machine Learning Engineer

nour.ramadan@ml.com | +20 115 456 7890 | Giza, Egypt

Professional Summary

ML Engineer specializing in computer vision and deep learning. Built production-grade models deployed at scale for retail and security applications.

Core Skills

Python • PyTorch • OpenCV • ONNX
Triton • FastAPI • CUDA • MLflow

Work Experience

ML Engineer — Breadfast

2022–Present

- Deployed object detection model reducing warehouse errors by 30%.
- Optimized inference pipeline achieving 50ms latency on edge devices.
- Built MLOps workflow using MLflow and Docker.

Research Engineer — ITI AI Lab

2020–2022

- Published research on Arabic OCR achieving 94% accuracy.
- Developed Arabic handwriting recognition system.

Education

B.Sc. Electronics & Communications — Cairo University (2020)

Languages

Arabic (Native) • English (Fluent)
